To whom It May Concern,  
I am an over the road trucker and loyal listener of XM Radio. I purchased this system to help me in my profession. My XM radio provides clear, commercial free, up-to-date weather and traffic information no matter where I am, or what time of day or night. There is a channel dedicated to truckers with a wealth of information otherwise unavailable to me. Since listening to XM I have become more aware about what is going on in my country, government and the world. It has inspired me to vote for the first time in my life. That's 42 years with no voice in our government. Obviously, I have found it now.

Last I heard this country was founded on the basis of freedom. Not just freedom of thought and speech but freedom of choice as well. I pay for XM Radio satellite service, and I am concerned that some one is trying to take that right away from me. I have already written my senator and will be writing my congressman as well. Hear my voice, I am not alone when I say, leave my XM Radio alone.

Regards,
